

Hello to my all my friends.

Roger Basick is a radio missionary in Ireland who started out at WMBI in Chicago. Manna For All is an audio testimony ministry that helps people hear the truth of God's love in their heart language. Follow this link [www.MannaForAll.org](http://www.MannaForAll.org) to learn about this resource. It comes in many languages and also with specializations for different groups...like cab drivers. Not only can you hopefully use this to help others find Christ, you may also be able to help expand the library of testimonies. For example, Roger mentioned he would love to get some testimonies of international workers in the Cruise industry. He knows a missionary with Seaman's Mission in Ireland who would like a customized tool for his ministry. If you think you can help in any way please contact Roger (his information is below).

God bless and please feel free to forward this to all the missionaries you may know all around the world.
