

Walk by Faith, not by sight ...

The pastor sat across from the 83 year old veteran missionary and asked, "What advice do you have for me?". With a twinkle in his eye the old man said, "Ask God to give you problems that only He can solve. That way when He comes through you will learn to trust Him and not yourself". I share my former pastor's experience with you because this is where we find ourselves, and I want to encourage you to pray this dangerous prayer with us.

You see, God blessed us this past month with \$108 in new monthly pledge support. However a couple of supporters had to drop which leaves us with a deficit of \$1901. Trying to raise that amount in just over two months is a God sized problem. Yet I can see that this is exactly where God wants us. We need to see him come through in this situation because we must learn to trust Him for the battles that lie ahead! There are over one hundred villages with no gospel witness and our enemy will not give up without a fight. Expanding our radio broadcasts to help reach these people will stretch everyone in the broadcast division way beyond their comfort zones. This expansion will need strong Native American believers and that brings the added challenge of working on a cross cultural team. These are our challenges, but what about you?

Will you ask God to stretch your faith and then move into those challenges when He brings them your way? This may look different for each of us, but may I be so bold as to ask if joining our support team would be one of those challenges for you?

To the right you will see I adjusted the graph to show our total need and how much support is currently pledged. (Please remember that this monthly number is not just our paycheck, but it includes the total cost of keeping us in the field.) If you have questions please call us at (309) 338-2295. Thanks for your prayerful consideration.

Whether God calls you to join us or leads you to some other challenge, be strong and very courageous because the Lord our God is with you!
