

January 25, 2011

Dear friends at Windy City Community Church,

We want to thank you so much for your generous Christmas gift. We do appreciate it so much.

We are in Huehuetenango at home. I had the chance along with three other ladies to teach orientation for the Berea Bible Institute girls. We saw some very positive changes in the girls since we taught last year. It was a real joy to teach them now. We will have another week the end of March and also the end of May and we are trying to decide which courses would be the most helpful for them.

David has been answering letters on the Internet for new Spanish speaking Christians from different parts of the world. It's a program put on by Campus Crusade and it's a great opportunity.

Next week we expect two men from the Ixil Mayan tribe to come for the week so we can work on checking their first work on translating the Old Testament into their language. We will need the Lord's wisdom for this.

Our church is currently looking for a new place to build. We have been borrowing a coffee warehouse for the last 5 years or so. We would like some place where there is no other church close by.

Thank you for praying for my cancer. I went back for a checkup and was told to continue on the same medicine I have been taking. We are thankful our times are in God's hands.

May the Lord continue to use each of you.

Very gratefully

David & Helen Ekstrom
