### ***Transforming a Neighborhood, One Child at a Time***

"I asked the teacher, 'what happened?' The school had told me that my son was not ready for the next grade, now they wanted to pass him. The teacher showed me the last exam my son took. I didn't believe it. I made the teacher retest my son, with me watching! **He passed the exam, again. He is now going to the next grade,**" said a mother to one of our after-school City of Refuge tutors. This mother, is one of five who is convinced that our tutoring, in the San Jose neighborhood, is helping their kids experience major improvement in their school work.

**Many of the Tenancingo's prostitutes live in San Jose. Their children suffer neglect** and have little possibilities of breaking out of the poverty cycle. **Christ, love and education can break them free.**

Ted Brooks, a school principal in Beach Park II., shared with us his vision to support public schools and break the poverty cycle through tutoring.

Last May one of our City of Refuge teams, who had been meeting for a

year praying for God's plan for the neighborhood San Jose, opened a store front tutoring center.

Pastor Javier Tarinda, missionaries Mateo and Lina Reed, and other church members are leading the advance into this abandoned neighborhood.

Last summer evangelistic campaign gave us many contacts in San Jose, which are now being followed up on through City of Refuge- San Jose. English classes are offered during the week and **a Bible study is being offered to parents on Tues night.**

We are one step further to seeing this region transformed through the Kingdom of God and Christ's love.

Transforming a Region....One life at a time.

**Thank you for your investment, through giving and prayer, to transform each of these child's lives.**

With Much Love,  
Chris and Kathy
