

Hello. We came back to the US on December 16th and we were able to celebrate Christmas with in KY with Hannah, Ruthie and A Jay.

After Christmas, Don and I flew to St. Louis for Intervarsity's " Urbana", which is a huge missions conference. Mark and Chris Currie had a booth for New Hope International and we spoke with many students interested in missions.

Speaking with students

When we left our country this time our passport was stamped with an Endorsement which says we must be out of our country 60 days before returning. This is a new law from the government which went into effect in early December. Unfortunately, we already had our tickets to return January 6th! We had to pay a penalty of over \$1,600 :-( to change our tickets to February 17th. **Please pray the Lord will provide some extra funds to cover this expense.**

The discipleship course that Don was to teach will have to be pushed back and the January module I was supposed to take will now be an independent study.

Philip and Grace have also been affected by this new law and they have had to make several trips to the capital to try and get permission for Phil to stay longer.

We wish you God's best in 2010 and thank you for standing with us.

Don and Sharon Lee
