

Treasure Explosion

Taal Volcanic Compressed Jewels Exploded in the Eruption and are Scattered all over this very site!

This will be the introduction into the BIG Event, as 180 Middle School Kids Descend upon our Base Camp, for our Annual Week of Outdoor Education. The students will have to search High and Low, in Water, in Sand, in Dirt, and in Weeds to find the precious Jewels that have exploded from the near-by Taal Volcano. This Scavenger Hunt will have kids running all over, scurrying to find exciting treasures. The Advance crew will have done their job to place all these marbled jewels and hopefully fun will be had by all.

We too have searched for treasures, and many have heeded the call. A Huge Thank-You to many who gave a year-end gift to off-set our large deficit. God has blessed us to remove over half of our deficit. It is our pleasure to be the Hands and Feet of so many who support us in prayer and finances. Surely many of you will find jewels . . . in your heavenly crowns. To God Be the Glory!

Blessings, *Don and Kristen MacKay*
