

300 Homes Destroyed

Local Squatter Community Disappears into a Tower of Flames

In an area no bigger than our School's Gymnasium, lived 300 families. In a quick few moments, tragedy ensued, and they lost all the meager possessions they had to their names. We went and documented with photos as we reached out and helped feed several hundred. We then connected with one of our Faith Academy Parents who was on furlough. They had planted a church in this specific area and knew the community would need assistance. As I met with the local Filipino Pastor, we discovered that 22/23 church families lost Everything. The only one who did not lose their home was in fact, the home where the church met. It then became the staging ground for our relief efforts.

We were able to collect food, and clothing, and household goods and funds to purchase additional supplies that students and staff were able to help distribute. Thanks for helping us be the hands and feet of Jesus!

Blessings, *Don and Kristen MacKay*
