

MANILA MACKAYS

THE 2014-2015 SCHOOL YEAR BEGINS. CALEB CELEBRATES HIS LAST '1ST DAY PHOTO.'

Caleb's Senior Year at Faith Academy

Our 5th grade students, bearing the flags of 20 nations representing our student's home countries. We have the opportunity to influence the Nations, through impacting future leaders and ambassadors of good news by working with these students at Faith Academy. Your faithfulness in prayer and your goodness in giving,

allows us to partner for the Kingdom of Christ and the Lord of the Nations. We are in our 20th year in the Philippines, and thank you for your continued support!

Kristen begins her new role of teaching 6th grade Math and Science. She loves the direct connection with her students and the chance to do

creative things while teaching geology, like making metamorphic rocks with chocolate chips and marshmallows.

Don continues in his role as Campus Pastor working with the Staff and also Directing A4J(All for Jesus) kids outreach to 300+ Impoverished kids from the area.

Tropical Storm Mario dumps more than 14" of rain in 24 hours.

With memories coming of Tropical Storm Ondoy, 5 years ago, everyone was nervous of a repeat deluge that affected the national capitol for weeks. We did have some missionaries that were in low lying neighborhoods with up to 6 feet of flood waters. Thankfully the majority of the Faith Academy Community were not in too bad of shape. Faith families did rise to the call and we brought donated clothing and food and supplies and funds to Bernard Flores, the pastor of the church we have partnered with

near Laguna de Bay. . . Arenda, Taytay was flooded for months following Ondoy. Although the flood waters had been thigh high outside the church as late as Monday, thanks to a new drainage channel, the water receded by Tuesday when I arrived. Pastor Bernard was very grateful for all the goods, and asked humbly if he could share with a pastor in another area, that he knew did not fair as well in the flooding. What a great expression of selfless giving!
